Take control of your career with BTEC Higher Nationals

Education is the passport to the future, for tomorrow belongs to those who prepare for it today. With so many students wanting to make their mark in the world of work, it is becoming more important for them to gain the right skills to be confident in the outside world.

BTEC Higher Nationals have a long history of delivering higher level technical and professional skills. They provide career-focussed experience as well as academic knowledge; ensuring you'll gain the required expertise, as identified by business and industry, and the flexibility to take the next step into employment or continue to a degree.

Whichever path you choose, BTEC Higher Nationals offer you real opportunities and real qualifications to prosper in the real world.

In designing the BTEC Higher Nationals we've worked closely with relevant employers and Professional Bodies, to ensure alignment with recognised professional standards, and with universities to ensure alignment with degree programmes. The new BTEC Higher National qualifications are designed to reflect the increasing need for high quality professional and technical qualifications at Levels 4 and 5, providing you with a clear line of sight to your career, or progression to a degree at Level 6.

Go Higher ^

Why choose BTEC Higher Nationals?

When thinking about your career and your future, it is becoming increasingly important to make sure you feel confident that what you choose to study will enhance your career path and give you peace of mind that it meets industry standards. BTEC Higher Nationals are professional / technical higher education qualifications, not only recognised as equivalent to the first two years of an honours degree, but co-designed with industry, employers and professional bodies, so they are widely recognised by industry and higher education as the principal vocational qualification at Levels 4 and 5. With clear routes to or within employment, or progression to an honours degree at level 6, BTEC Higher Nationals are designed to help you secure the knowledge, skills and behaviours needed to succeed in the workplace.

- When developing the BTEC Higher National qualifications, we collaborated with a wide range of students, employers, higher education providers, colleges and subject experts, to ensure that the new qualifications meet their needs and expectations.
- There is now a greater emphasis on employer engagement and work readiness.
- They are designed to reflect this increasing need for high-quality professional and technical education pathways at Levels 4 and 5.
- These qualifications provide you with a clear pathway to employment, and a recognised progression route to gain the further learning required at Level 6

Designed for clear transitions

“ I believe that the qualification helped me gain a good foundation in the practical and business aspects of photography and gave me the confidence to become a freelancer.”

Yves Salmon completed BTEC Higher National Certificate in Photography

What is the difference between an HNC and an HND?

Higher National Certificate	Higher National Diploma
<ul style="list-style-type: none">• Usually takes one year to complete if studying full time, and two years if studying part time.	<ul style="list-style-type: none">• Usually takes two years to complete if studying full time, and four years if studying part time.
<ul style="list-style-type: none">• Equivalent to the first year of a University degree.	<ul style="list-style-type: none">• Equivalent to the first and second year of a University degree.
<ul style="list-style-type: none">• Usually a more introductory programme with a 'core' of learning essential to the subject (some sectors may have more specialist content depending on level of entry to the job market).	<ul style="list-style-type: none">• A more specialised programme of learning with pathways linked to occupational outcomes.
<ul style="list-style-type: none">• Opportunities to develop project management skills.	<ul style="list-style-type: none">• An increased focus on research skills.
Assessment for both years will be through a varied programme of assignments.	
Core modules credit values may vary by subject but will not be less than 30% of the whole qualification.	

Real world success - Christopher Meredith

Christopher Meredith is a higher level apprentice working for the Jacobs engineering consultancy in Leeds, where he has progressed through completion of the Level 3 Extended Diploma in Construction and the Built Environment and the Level 3 Advanced Technical Apprenticeship and BTEC HNC before embarking on the Higher Level Apprenticeship in February 2018.

Chris enrolled at the Leeds College of Building to pursue a BTEC Level 2 in Construction and the Built Environment (CBE) having taken the Level 1 at school. While Chris's determined progress

down in excitement along with him at the news of his appointment, and the pride that he felt.

Chris is now heavily involved in the technical design of highways using 3D visualisation models and drawings. He communicates with project teams all around the world and is instrumental in solving complex civil engineering problems for Jacobs Engineering.

Having gained the Institution of Civil Engineer's Quest Technician Scholarship – awarded only to apprentices of the highest calibre – and passing

“Enrolling on a BTEC course has changed my life because it’s given me a prospect and a qualification that I need. And I can use this knowledge at work, as well as work knowledge at college so it works both ways.”

through these levels is impressive in itself, what makes Chris an award-winner is the fact that he has done this against the odds, lifting himself out of what could have been an unhappy future through the sheer force of his effort and personality.

Chris left school disillusioned with no GCSEs, having been frequently suspended during his time there. With his brother and several friends having already fallen foul of the law, Chris might well have gone a similar way, but he wanted more for himself, describing a “desperate yearning to be successful.” Having taken the Level 1 BTEC at school, Chris was able to enrol on the Level 2 course at college without GCSEs – a decision which he says, “changed his life forever.”

Following a successful work placement, he was offered an Apprenticeship and has never looked back. He recalls how his lecturers jumped up and

the Institution of Civil Engineers (ICE) Technician Professional Review, Chris has gone from strength to strength.

Modestly giving much of the credit for his success to BTEC, Chris is actively involved with marketing apprenticeships and higher education to other young people, through radio and television, and acts as a mentor to junior apprentices at work. He also volunteers as a Student Ambassador at Leeds College of Building, because he says, “it’s important to give something back to the college that’s supported me for 6 plus years.”

Chris’s ambition is to finish his degree and ‘hopefully progress through the ranks of my company’. Chris is an excellent role model for apprentices - and living proof that with hard work and determination you can achieve anything you want. A very worthy winner of the BTEC Apprentice of the Year 2019 (19+) award and BTEC Student of the Year 2019.

Designed to work in a digital world

BTEC Higher Nationals are supported by a specially designed range of digital resources, to ensure that you’ll have the best possible experience during your course. These are available on our free dedicated platform for Higher National students – **HN Global**. You’ll be able to access free online learning to develop your study skills to support your higher education learning, and career development resources to support you with preparing for the real world. With HN Global, you can also participate within a community of other BTEC Higher National students from around the world, via online forums, to discuss anything relevant to your course.

*This list is a combination of pathways at both BTEC HNC and HND level. Please consult with your local college regarding exact pathways to be delivered within your chosen qualification.			
** These are suggestions of the typical job roles related to this qualification at this level. Pearson does not guarantee employment upon completion, and you will have a responsibility to make sure that you meet the employer's requirements.			

“ Looking back at the two years I spent studying at the College, I can easily say that completing the HND course has brought out the best in me and I am more confident than I have ever been before. ”

Stuart Munn, BTEC Higher National Diploma in Computing student at Heart of Worcestershire College, UK

Real opportnities

Real rewards

In 2017, Pearson asked students from around the world why they enjoy studying a BTEC Higher National qualification. BTEC Higher Nationals really do make a difference to students lives, and prepare them for real world experiences that they will require when embarking on their career journey.

◀ Click on the video to find out what some of our current students have to say.

Designed to take you further

Whether to, or within employment, or onto the final year of a university degree, Pearson is dedicated to creating opportunities to help you once you have completed your qualification.

We work with universities in the UK and around the world, explaining the content, structure and purpose of BTEC Higher National qualifications, so that the universities recognise your value and accept applications from you as a BTEC Higher National holder onto a degree programme.

You can find all these articulations on our **Degree Finder website**. (You should always check the entry requirements for degree programmes at specific higher education providers).

We also work with employers to produce our qualifications, to make sure the BTEC Higher Nationals are up-to-date and meet the requirements of industry. This means that you will be learning the skills and knowledge wanted by employers. We gain recognition from employers so that whilst they are reviewing job applications, they already understand your value and significance by being an applicant holding a BTEC Higher National qualification.

We also engage with professional bodies to create clear routes of progression for BTEC Higher National holders, so you can use your qualification to fully, or partially, claim a professional certification and gain accelerated progression towards, for example, Chartered status.

BTEC Higher National Qualification	Some examples of the current exemptions/vendor accreditations for BTEC Higher National qualifications
Business	Association of Chartered Certified Accountants ACCA, CIMA, CIPD, CIPS
Computing	CompTIA, CISCO, Microsoft, Oracle, AXELOS
Construction and the Built Environment	Institution of Civil Engineers (ICE), Institution of Structural Engineers (iStructE), Chartered Institute of Building (CIOB), Chartered Institution of Highways & Transportation (CIHT), Institute of Highways Engineers (IHE).

[Find out which higher education institutions have confirmed recognition of, or progression from, a BTEC Higher National qualification at www.highernationals.com/degree-finder]

Designed to meet your budget

Costs

Please note that the annual tuition fees to study a BTEC Higher National qualification are at the discretion of the college and can be found within their prospectus. However, it is usually considerably less than studying at university.

Funding

BTEC Higher Nationals are subject to student loan funding within Further Education Colleges, but you will generally only receive student finance for your **first higher education qualification**. A full breakdown of available funding can be found on the opposite page.

If you are considering a BTEC Higher National at a private college in the UK, you will need to consult with the college regarding the tuition fees.

If you want more information about loans and grants, visit

www.gov.uk/student-finance

for more information, and to apply.

What to do next

1. If you are interested in studying a BTEC Higher National qualification, spend time researching the course that you are interested in.
2. Visit the college website(s) and attend open days to find out what they have to offer.
3. Make sure you meet all application requirements.
4. Speak to your careers advisor if you need more support.

As part of an initial advice and guidance, interview and enrolment procedure, colleges might take into account the prior experience and knowledge you have gained from outside the formal education and training system. This is known as **Recognition of Prior Learning**, or RPL. Speak to your local college if you're unsure.

Where will you study?

You can find an institution where you can study your chosen BTEC Higher National easily with our College Finder - visit www.highernationals.com/find-your-college

If you have any further queries,
or would like more information about
any individual subject, please contact
